## About NavtechGPS:

### GPS Equipment

NavtechGPS offers an extensive line of GPS equipment for use in many and varied applications. We have GPS/GIS systems for professional users, GPS antennas, DGPS systems, OEM GPS board-level receivers, survey grade single and dual-frequency RTK systems and the industry's most popular hand-held GPS receivers. We also carry books and technical publications relating to most aspects of GPS technology. Our goal is to provide equipment that meets the needs of our customers, with outstanding service and support.

### Seminars/Tutorials, Technical Training

NavtechGPS has been providing courses and advanced GPS training since 1984. We offer more than 20 courses on topics such as interference/jamming, kalman filtering, GPS and DGPS basics, signal processing and others. NavtechGPS will be providing technical tutorials prior to the Institute of Navigation's Satellite Division's, ION GNSS 2008 conference. On-site contract courses tailored to your specific needs are available and welcome.
